## Preferences

### Location

Lithuania only

### Duration

Full-time position

### Current status

Working (Hit me with offer) (Updated: 8 months ago)

### Workload

100%

## Personal Statement

During my 9+ career working as information security specialist/ IT auditor, project manager, business process manager, IT manager, business and system analyst, IS testing specialist, bid team member/ manager I have gained a lot of different experience in the field of information technology.

Also working on various international and domestic projects, with public and private sector clients, being a team member and a team lead I have met a lot of interesting people who describe me as having an ability to listen and to work towards a shared goal, positive, result oriented, professional, not categorical, persistent and structural.

I also understood that no matter what role I am in I am always seeking for dynamics, challenges, responsibility, trust, new experience and a way to contribute to the success of the company

## Skill Stack

### ROLE EXPERIENCE

Project Manager 2-3  
years

IT Analyst 1-2 years
