Description:

Behalf of our client - Euroapothea, we are looking for an **early middle-level PHP (Symfony) Developer** to join their team. Euroapothea is an international group of companies managing retail pharmacy networks and wholesale companies in Lithuania, Latvia, Estonia, Poland, and Sweden (670 pharmacies, 3,800+ employees). Leading position in Lithuania and strong presence in other markets of the region. Unique brand & reputation of business innovator, reliable partner, and preferred employer.

Responsibilities:

- Development and maintenance of internal systems (new and existing ones).
- Search and elimination of problem areas.
- Integration of systems and platforms.
- Collaboration with the team on other tasks.

Requirements:

- 2+ years of work experience as a PHP developer, OOP.
- Experience in working with MariaDB or MSSQL.
- Experience in working with Symfony 4/5 framework.
- Basic front-end development experience (HTML/CSS, JavaScript).

- Experience in creating custom functionality using best practices and patterns, keeping consistency
- within existing architecture;
- Experience in writing good quality and clean code, contribute to coding standards, refactoring.
- Technical English language skills.
- Ability to adapt quickly and to demonstrate a flexible approach, work independently.

Company offers:

- Work on interesting projects where you will realize your competencies.
- A performance-driven culture that generates results.
- A commitment to your personal and professional development.
- A chance to make a difference to our business, working in our leading teams of talented and committed people.
- A work environment where professionalism and teamwork are valued.
- Excellent working conditions and attractive benefits package: health insurance, travel insurance,
- flexible working hours, 5 additional holiday days, and more.
