# Identity and Access Management System Engineer

## Baltic Virtual Assistants

Vilnius, Lithuania

### Description

We are Baltic Assist – experts in finding creative ways to expand the local job market and provide new, exciting opportunities for the best talent. Built on core values like transparency and innovation, our team is constantly working on making BA the top choice when it comes to your career.

We are looking for an Identity and Access Management System Engineer to join our team. You'll be working on the development of user authentication and authorization applications and be part of a multi-national team that solves complex IT security & compliance issues.

The position is open to Ukrainian refugees and the company offers to reimburse accommodation costs in Lithuania up to 6 months and provide any necessary assistance.

**What you'll do**

- Install, customize and test user authentication and authorization (IdM / IAM) applications
- Develop and test extensions and connectors to peripheral systems
- Participate in the development of solution architecture
- Create test cases, assess and monitor user tests, test execution
- Create user training instructions and documentation

- Communicate with internal and external stakeholders

#### **What we expect**

- Knowledge of the IAM and IdM environment (user login, authentication, authorization process) or system engineering in a Windows environment
- Development experience with .Net and/or Java
- Ability to work independently
- Good communication skills (approach employees / customers proactively)
- Very good knowledge of spoken and written English
- Desirable: higher vocational training (business IT specialist, further training at higher technical schools)

#### **What we offer**

- Fixed monthly remuneration from 2220 EUR to 5000 EUR gross (before tax) based on your competencies, skills, and experience
- Flexible working arrangements to help you succeed in your career while balancing personal needs
- Work in an engaging international environment
- Excellent conditions to support your professional and personal development
- Open and friendly company culture

### **Required Skills**

#### **IMPLEMENTATION**

Identity Access Management (IAM) 2-3 years
