### Aprašymas:

SAI360, a global provider of Risk Management Solutions is recruiting for QA Test Engineers to perform a full suite of testing services across our Learning software solutions. We are looking for QA Test Engineers who have hands-on experience creating, maintaining, and executing Cucumber, and/or Cypress.io, and/or Selenium-based automated and exploratory tests in a behavior-driven development (BDD) style.

Working as part of a specialist software team, the QA Test Engineers will use functional and non-functional correctness via scenarios. In addition to the above, we are looking for QA Test Engineers who enjoy automating testing processes as we look to automate all test workflows where possible.

#### Main duties:

- Participate in the refinement and planning of test workload;
- Define test cases for new functionality;
- Build automation testing solutions from the beginning;
- Write automated tests using Gherkin in Cucumber and apply Behaviour-Driven Development;
- Using Java, develop steps to link the automated tests in Cucumber with the Java code to ensure efficiency;
- Execute automated and, if necessary, exploratory tests for existing and new functionality including regression testing;

- Document test results in a lean and efficient way;
- Performing testing using Selenium or Cypress.io;
- Contribute to continuous improvement of the development processes and the developed product.

**Experience and Skillset required:**

- Experience within a similar role performing test automation;
- Basic knowledge of Java programming;
- Experience using Cucumber, and/or Selenium, and/or Cypress.io;
- Experience using SQL and/or PostgreSQL databases;
- Ability to problem-solve and think out-of-the-box;
- Flexible and positive attitude;
- Fluent English, verbal and in writing.

**Benefits:**

- Remote work opportunities and flexible working hours;
- Private health and accident insurance;
- Extra vacation days;
- Professional growth opportunities and the opportunity to work with the latest tech;
- A Sports Allowance of up to €70 per month;
- A fantastic collaborative workspace in the heart of Vilnius (UMA Workspace on Gediminas Avenue!);
- Performance-nased annual bonus and salary review;
- Depending on experience and skillset, the basic salary ranges from €25,000 to €45,000 gross per annum.

Please note, we cannot offer visa sponsorship for this opportunity.

**About SAI360:**

SAI360 helps organizations across the globe manage risk, create trust, and achieve business resilience with a unified approach to risk management.

SAI360 empowers our customers to focus on developing the right risk culture through a meaningful and effective combination of cloud-based technology and ethics and compliance learning solutions, including our SAI360 Integrated Risk Management Platform. Together, this powerful approach can do more in a single day than any

one stand-alone offering.

*SAI360 is the leading provider of Risk, Learning, EHS, and Sustainability software. Our cloud-first SAI360 platform contains flexible, scalable, and configurable modules for a better vantage point on risk management. Our unified approach to risk management is what sets us apart, helping organizations across the globe manage risk, create trust, and achieve business resilience for over 25 years.*

*SAI360 is headquartered in Chicago, U.S., and operates across Europe, the Middle East, Africa, the Americas, Asia, and the Pacific.*
