## Aprašymas:

Dematic is a leading supplier of integrated automated technology, software and services to optimize the supply chain. Dematic employs over 7,000 skilled logistics professionals to serve its customers globally, with engineering centers and manufacturing facilities located around the world. Dematic is one brand under the KION Group of companies and has implemented more than 6,000 integrated systems for a customer base that includes small, medium and large companies doing business in a variety of market sectors.

Headquartered in Atlanta, Georgia, Dematic is a member of KION Group, a global leader in industrial trucks, related services and supply chain solutions. Across more than 100 countries worldwide, the KION Group designs, builds and supports logistics solutions that optimize material and information flow within factories, warehouses and distribution centers. The company is the largest manufacturer of industrial trucks in Europe, the second-largest producer of forklifts globally and a leading provider of warehouse automation.

### **The Role:**

As our business grows we look to develop new processes and systems that support this growth, challenge the way we deliver things and that facilitate our business to grow effectively and efficiently.

Dematic have chosen Sharepoint as our system of choice for operational support. We have therefore

created the new position of Sharepint Developer to take ownership for the development of Sharepont systems and processes as well as the ongoing administration of these systems.

You'll scope, design, develop, deploy and support SharePoint and Office 365 applications as guided by the Head of Process Improvement and the Digital Innovations Group. Administrate SharePoint Online and provide the business with technical assessment.

**To be successful in this business critical position:**

You will have a background in sharepoint development and administration. As well as:

- JavaScript - including JQUERY / HTML / CSS
- SharePoint REST and OData Services
- SharePoint Administration & Architecture
- Nintex Workflow and Forms
- Microsoft Flow & PowerApps
- Advanced knowledge of O365 suite of applications
- Working knowledge of SCRUM and AGILE methodologies

**Desired Technical Competencies:**

- PowerShell
- Microsoft Graph
- JS
- Azure Web Apps
- JIRA

 **DEMATIC**

**Reikalinga Patirtis**
