### Description:

As a Front-end Developer, you will be responsible for designing and implementing visual elements that users see and interact within a website and application, which makes your role crucial for the success of our business.

If you're interested in creating a user-friendly environment by writing code and moving forward in your career, then this job is for you.

### Requirements

- 2+ year experience with JavaScript programming language;
- 2+ year experience with HTML5, CSS, SASS/LESS;
- Experience with JavaScript frameworks (VUE/React/Angular) would be advantageous
- Knowledge of UI/UX practices
- Familiarity with REST-based APIs

### We offer

- Modern office in Vilnius city center;
- Remote job;
- Work in an international company;
- An opportunity to improve and grow as a specialist;
- Competitive salary that depends on candidates' experience and competence of working in the IT field.
