Aprašymas:

We create powerful, beautiful and intuitive digital products. We don't blindly follow trends. We take our understanding of the latest technologies and build the best solutions for our enterprise clients. We're big believers in collaboration across engineering, UX and product teams. We combine our individual expertise to solve complex challenges.

We seek team members who care about results and are not afraid of taking ownership.

Main responsibilities:

- Develop and deliver software solutions for our clients in Front End space
- Collaborate with team members on project priorities, deadlines and deliverables
- Stay on top with latest technologies
- Share knowledge and know-how of software best practices inside and outside the team

Requirements

- 5+ years of experience in Front End development (e.g. HTML5, CSS, JavaScript)
- Experience developing with modern front-end tools and frameworks., e.g. Scss, Gulp, Webpack and etc.
- Solid cross browser implementation understanding.

- Experience in Agile development environment
- Fluent communication in English

Benefits

- A digital products focused company with a variety of challenging engagements with upper mid-market and Fortune organizations
- A chance to work with the top talent professionals and award winning teams across different countries
- Competitive salary and performance based bonuses
- Private health insurance
- 2 additional vacation days
- Remote work opportunities
- Sponsored participation in professional improvement events
- Trips to our other offices and clients' sites
- Great team building events
- Sports activities including gym benefit
- Employee referral program
